THE STRENGTH OF NORDEN

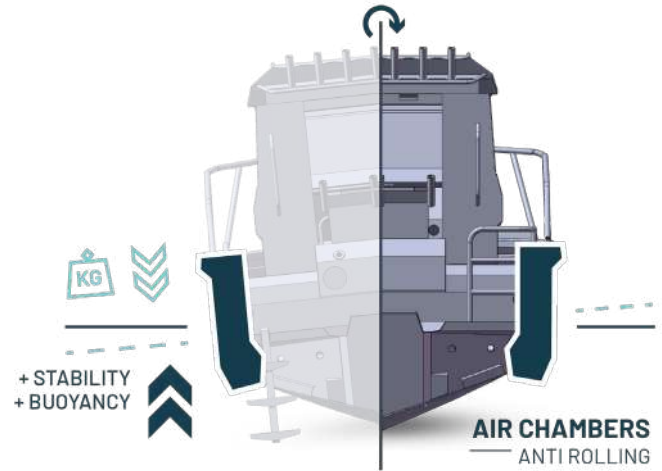

STABILITY TECHNOLOGY

STABILITY, EVEN IN HIGH SEAS

Stability is an essential quality when sailing. That's why the 3D Craft side stabilizers, a technology inspired by our RIBs, is designed to ensure your balance. Your day at sea will be preserved from any bad experience.

A LIGHT STRUCTURE FOR PRECISE HANDLING

3D Craft models use a combination of materials chosen for their particular properties. The boats are composed of a layer of foam bringing lightness to the structure of the boat to facilitate your navigation maneuvers. 3D teams renew their use of aluminum, a quality material, which keeps its properties after recycling.

BEHIND 3D CRAFT

A PRECISION PROCESS

The French leader in RIBs puts its expertise at the service of all the passions of the open sea. Enjoy your passion in complete stability, with the exceptional design of our 3D Craft range.

For its new range, the 3D team puts all its efforts into creating boats respecting our values: the taste for quality, the taste for innovation and the taste for challenges.

Enjoy the sensations of the sea, explore the hidden spots that only you know, enjoy a safe ride thanks to our quality and durability requirements. Our boats are made to have great maneuverability, to keep control even in difficult conditions.

NORDEN 600

THE AGILITY AT SEA

 **200 HP**

 **980 KG**

NORDEN 695

PREPARED FOR EVERYTHING

 **250 HP**

 **1,450 KG**

 **7 PASSENGERS**

 **350 L**

The Norden 695, the intermediary size of the 3 models, with an ideal size for most uses. The strong point is the walk-around platform with handrails for a safe travel between the aft and rear area of the ship. Like all the boats from the range the hull design will grant you a smooth and safe ride even on the roughest seas.

TAME THE OPEN SEA

 **350 HP**

 **1,630 KG**

 **8 PASSENGERS**

 **450 L**

The big brother of the Norden range. It was designed with all the equipment and a larger cabin to enjoy a nice holiday cruising or a long fishing trip. The boat feature double helms position, which allow you to drive it from the inside or the outside of the cabin. The shape of the hull was designed to handle all conditions you may encounter during your off-shore fishing trips.

EQUIPMENT

- ▶ 50L fish tank
- ▶ Washdown pump kit
- ▶ Self-draining system and bilge pump
- ▶ Rod holders and handrails
- ▶ Side storage trays
- ▶ LED search lights and headlights
- ▶ LED deck light
- ▶ Cabin with door
- ▶ Sliding windows and wipers
- ▶ Suspension seat and 3 passenger seats
- ▶ Dual cockpit (int/ext)
- ▶ Kitchen, sink
- ▶ Diving ladder
- ▶ Anchor well
- ▶ Electric windlass

+ COMFORT PACK

- ▶ EVA anti-slip floor with fish scale
- ▶ Bluetooth stereo speakers
- ▶ Fridge
- ▶ Toilets
